

Workshop handout

A fictional lesson for testing document updates.

VERSION 1

Room 2

Session begins at 10:00. Bring a notebook.

Before you share

1. Open the file using the reader-facing URL.
2. Confirm the version and room shown above.
3. Check access without the document owner's login.
4. Keep a recovery copy before replacing the file.

Example only. This is not an invitation or a customer document.

Version 2 changes the room from Room 2 to Room 4.

302.sh manages short links; it does not host your uploaded PDF.
